Eutelsat and MSTelcom Sign Distribution Agreement to Expand LEO Connectivity Services in Angola

- ***Strengthening Eutelsat's growing LEO service footprint across Angola***
- ***Supporting MSTelcom in delivering high-performance connectivity for oil & gas, maritime and land-based customers***

Paris, 13 November 2025 – Eutelsat (ISIN: FR0010221234 – Euronext Paris / London Stock Exchange: ETL) today announced a new distribution agreement with MSTelcom, a subsidiary of Sonangol Group and a leading provider of telecommunications services in Angola, to deliver Eutelsat's OneWeb Low Earth Orbit (LEO) connectivity services across key sectors, including oil & gas, maritime and for fixed land operations -- enabling secure and high-performance communications in remote and hard-to-reach locations.

Under the agreement, MSTelcom will act as a distributor of Eutelsat's OneWeb services within Angola, bringing LEO connectivity solutions to enterprise, public sector and telecom customers. Eutelsat is the only licensed LEO services operator in Angola and has a well-established presence in the country delivering both broadcast and connectivity services. The agreement leverages Eutelsat's operational footprint, including a ground station and local Point-of-Presence (PoP) in Angola that enable Eutelsat's OneWeb's high-speed, low-latency services in the country and across Central Africa.

Philippe Baudrier, VP Africa for Eutelsat, said: *"This agreement expands the reach of our LEO services in Angola and strengthens our work supporting the country's connectivity needs. By joining forces with MSTelcom, we are enabling secure, resilient and high-performance connectivity for sectors that are critical to Angola's economic development."*

Felisberta de Jesus, CEO, MSTelcom, added: *"Partnering with Eutelsat enables MSTelecom to provide next-generation connectivity solutions to our customers operating in demanding and remote environments. This agreement strengthens our mission to deliver reliable, high-quality communications that support Angola's industrial growth and digital development."*

About Eutelsat

Eutelsat is a global leader in satellite communications, delivering connectivity and broadcast services worldwide. Eutelsat was formed through the combination of the Company and OneWeb in 2023, becoming the first fully integrated GEO-LEO satellite operator with a fleet of 34 Geostationary (GEO) satellites and a Low Earth Orbit (LEO) constellation of more than 600 satellites. Eutelsat addresses the needs of customers in four key verticals of Video, where it distributes around 6,400 television channels, and the high-growth connectivity markets of Mobile Connectivity, Fixed Connectivity, and Government Services. Eutelsat's unique suite of in-orbit assets and ground infrastructure enables it to deliver integrated solutions to meet the needs of global customers. The Company is headquartered in Paris and Eutelsat employs more than 1,600 people across more than 75 countries. Eutelsat is committed to delivering safe, resilient, and environmentally sustainable connectivity to help bridge the digital divide. The Company is listed on the Euronext Paris Stock Exchange (ticker: ETL) and the London Stock Exchange (ticker: ETL).
