Eutelsat statement on Yahsat'Al Yah 3 satellite

Paris, 26 January 2018 - Eutelsat Communications (Euronext Paris: ETL) has received confirmation that the Yahsat'Al Yah 3 satellite, on which it has contracted capacity for its African Broadband service, is operating nominally following the launch anomaly last night.

The mission experienced some challenges during the launch stages which resulted in the Al Yah 3 satellite being inserted into an orbit that differed from the flight plan. Thereafter, the satellite was successfully acquired by Yahsat and the satellite is healthy and operating nominally. A revised flight plan will be executed in order to achieve the operational orbit and fulfil the original mission.

About Eutelsat Communications

Founded in 1977, Eutelsat Communications is one of the world's leading satellite operators. With a global fleet of satellites and associated ground infrastructure, Eutelsat enables clients across Video, Data, Government, Fixed and Mobile Broadband markets to communicate effectively to their customers, irrespective of their location. Over 6,700 television channels operated by leading media groups are broadcast by Eutelsat to one billion viewers equipped for DTH reception or connected to terrestrial networks. Headquartered in Paris, with offices and teleports around the globe, Eutelsat assembles 1,000 men and women from 44 countries who are dedicated to delivering the highest quality of service.

Eutelsat Communications is listed on the Euronext Paris Stock Exchange (ticker: ETL).
