Eutelsat TV Awards winners revealed!

Rome, 30 October 2015 - Creativity, innovation, energy and exceptional talent are the hallmarks of the winners of this year's **Eutelsat TV Awards** that were announced in Rome tonight at a gala ceremony attended by over 300 industry executives from around the world.

Now in their **18th year**, the Eutelsat TV Awards is an annual competition that shines a spotlight on the **quality of the television channels** broadcasting via Eutelsat satellites. Their programming strategy, production and audience engagement are assessed by an **independent jury** of media experts from key video markets, including **Latin America** for the first time this year.

In addition to the **jury Awards** and the **People's Choice**, Eutelsat assigned awards to **three broadcasters** for their exceptional work: to **Discovery** for 30 years in the business and for its relentless drive to generate outstanding content matched to diversified age groups, demographics and regions; to the **Vatican's CTV** for leveraging Ultra HD to deliver industry-leading quality of historic papal events to a global congregation; and to **SBB**, that operates the Total TV platform in Central and Eastern Europe, for accelerating the drive from Standard Definition to 100 per cent High Definition in order to give subscribers the highest quality of service.

Commenting from Rome, **Michel de Rosen**, Eutelsat CEO, said: *"The Awards is a unique opportunity to take the pulse of our industry. We are seeing channels that have started on Internet platforms move to satellite to expand their reach. We are in awe of the bravery of reporters who confront challenging and complex subjects and we are thrilled by the outstanding technical quality achieved for live concerts, matches and documentaries. It is a privilege to salute these achievements."*

About Eutelsat Communications

Established in 1977, Eutelsat Communications (Euronext Paris: ETL, ISIN code: FR0010221234) is one of the world's leading and most experienced operators of communications satellites. The company provides capacity on 38 satellites to clients that include broadcasters and broadcasting associations, pay-TV operators, video, data and Internet service providers, enterprises and government agencies.

Eutelsat's satellites provide ubiquitous coverage of Europe, the Middle East, Africa, Asia-Pacific and the Americas, enabling video, data, broadband and government communications to be established irrespective of a user's location.

Headquartered in Paris, with offices and teleports around the globe, Eutelsat represents a workforce of 1,000 men and women from 37 countries who are experts in their fields and work with clients to deliver the highest quality of service.
